

So I introduce myself Mathieu Hildebrand,

I am a candidate with other Ultra Triathletes that I have met several times on various races very nice peoples.

Why I am a candidate:

I like this sport, I like the spirit that prevails and I think it is not yet recognized at its fair value. Some events deserve to join the World Cup, better predictability of the seasons would be a plus, because athletes, given the prices of events and travel, must be able to plan their season in advance, September should be the maximum time to know the dates and cost of the World Cup events.

I am 100% willing to invest in communication, especially the Facebook page of IUTA : this sport is beautiful humanly and physically, it must be shown a bit like the wonderful work of Swiss Ultra.

Here I am, motivated, passionate about this beautiful sport and I am fully confident with other people who come forward :-) Together we are better
