

I am Norbert Lüftenegger

I will effort to represent the IUTA-Committee at the competitions. I think its very important that the IUTA-Committee get presence at the events to speak with athletes and organizers private.

IUTA-Committee should include athletes and organizers to their decitions about rules, point system and other actually affairs at our sport. I think periodic meetings or phone calls between IUTA and athletes/organizers will help to solve problems in advance.

We also have to talk about the worldcup point system. I think we could work out few different point systems and write out a official vote by all athletes.

I will be an ambassador for athletes and organizers at the IUTA-Committee.

We should make our fantastic sport from athletes for athletes.

Yours Norbert
